AV-5

The AV-5 is an economical Ground Plane base station antenna. It is ideally suited for use with Unicom transceivers and is field tunable for the frequency band desired. The radial arm angle is designed to give optimum VSWR at the tuned frequency. Durable constructed of high quality materials for a long operational life, the antenna is designed to withstand windspeeds up to 100 mph.

Product Specifications	
Application:	VHF Communications
Frequency:	118 to 137 MHz
Impedance:	50 Ohms Nominal
VSWR:	1.5 to 1 Maximum
Polarization:	Vertical
Pattern:	Omni-Directional
Connector:	Type SO-239
Max Weight:	1.0 lb
Max Height:	34"
RF Power Capacity:	100 Watts
