

PRODUCT DESCRIPTION

Model Number	AS-5071/ARN
Part Number	522-0688-013
NSN	5985-00-495-4876
Market	Military–Air

The AS-5071 is designed for use with Glide Slope receivers for reliable performance. The antenna is lightweight and is suitable for mounting either in a radome or externally on the aircraft. The antenna has an "N" Female Connector and is finished with a chemical film coating per Military Specification MIL-C-5541, Class 1A for maximum corrosion protection in a salt-laden atmosphere.

PRODUCT SPECIFICATIONS

Application	Glide Slope
Frequency	329–336 MHz
Impedance	50 Ohms Nominal
VSWR	2.0:1 Maximum
Polarization	Horizontal
Pattern	Forward Directional
Connector	"N" Female
Max Weight	0.7 lbs.
