

The RAMI81-40 is designed to mount an antenna with a 3/4-10 UNC mounting capability such as the RAMI201B or the AS-3166 to a mast or tower.

Assembly Instruction:

- 1.) Thread RAMI Insulation Extension into desired antenna.
- 2.) Loosen the four lock nuts on the two 1 1/2" pipe u-bolts and slide onto the RAMI Insulation Extension with antenna.
- 3.) Tighten lock nuts with wrench until completely tight.
- 4.) Remove the four lock nuts on the two 2" pipe u-bolts.
- 5.) Mount to mast or tower in desired location.
- 6.) Tighten lock nuts with wrench until completely tight
