TRIPOD HOLD DOWN SET-UP INSTRUCTIONS

Fold the three (3) legs of the tripod into the down position.

Turn the locking plate so the legs are locked in place and cannot be folded.

Secure the locking plate by tightening the upper mast adapter.

Place detent pin of the upper mast adapter into hole.

Place the anchor stake in the center of the three legs and hammer into the ground at approximately 60°.

Attach the clip at the end of the rope of the tensioner assembly to the anchor stake.

Attach the other clip of the tensioner assembly to the ring of detent pin.

Pull rope taut and secure with tensioner by placing rope into slot.
